

THE SCIENTIFIC REPORTS OF THE KYOTO PREFECTURAL UNIVERSITY AGRICULTURE NO. 27

Contents

Agriculture

- Studies on the yield stability viewed from the point of character manifestation
variability I Character variation of rice varieties, statistically valued
within and between plants
..... M. MURAKAMI, S. MORI, H. NAKANISHI and T. MURATA... 1
- Effects of rootstock on the bearing shoot growth of kaki trees
(*Diospyros kaki* L. var Hiratanenashi)
..... Y. SOBAJIMA, M. ISHIDA, A. KASHIWA and Y. KOMEDA... 11
- Studies on production of vegetable crops in water culture X
Effects of environmental factors on oxygen uptake by the intact tomato root
..... T. NAMIKI, S. NISHI, A. HANEDA and S. TAKASHIMA... 19
- Studies on production of vegetable crops in water culture XI
Effects of nutrient solution temperature on growth of tomato seedlings
..... S. TAKASHIMA, S. FUKUI, S. NISHI and T. NAMIKI... 25
- Cytochemical observations on abnormal zoosporangium of
Phytophthora capsici cultured in medium without sterol.
..... Y. MIYATA and H. MASAGO... 32
- Observation on feeding and oviposition behavior of the pea leaf-miner,
Phytomyza horticola Gourea (Diptera, Agromyzidae)
..... A. YOSHIDA and M. SASAKAWA... 37
- Effect of readily available carbohydrate on VFA production by rumen micro-flora
..... Y. KOJIMA, T. KANEMITSU and A. KOMATSU... 46
- Effect of crushed and/or cooked barley feeding on VFA
production in rumen and ration digestibility
..... Y. KOJIMA, F. HARADA and A. KOMATSU... 53

Forestry

- Basic studies on the natural regeneration of HINOKI (*Chamaecyparis obtusa* Endl.) I
Germination and mortality of natural seedlings..... S. TANAKA and M. TAKEOKA... 59
- Studies of plastic-soil-concrete III - on the durability- K. OHTE... 67
- Fundamental studies on the weight increment of AKAMATSU
(*Pinus densiflora* S. et Z.) stand II T. SENOO... 75

Agricultural Chemistry

- Fractionation of fulvic acids by gel filtration and their chelating ability
..... H. YAMADA, Y. YONEBAYASHI, T. HATTORI and S. MORITA... 103
- The studies on the heterogeneity of bovine κ -casein
..... F. IBUKI, H. TANAKA, M. MIYOSHI and M. KANAMORI... 110
